

STAND UP AND CHANGE THE GOVERNMENT!

ON OCTOBER 19, WE CAN STOP THE ATTACKS ON LABOUR.

The Harper Conservative government has spent the last ten years attacking the labour movement and undercutting union workers. In this election, Harper Conservatives have promised to continue the same failed policies and anti-worker agenda. It's time for a change.

**YOUR VOTE CAN PROVIDE THE CHANGE CANADA
NEEDS FOR THE FUTURE.**

*Make a plan to
vote October 19.*

READY TO **CHANGE** THE GOVERNMENT?

**The Harper Conservative government
has failed Operating Engineers and
has failed Canadians.**

THE CONSERVATIVES' LABOUR RECORD:

PASSED: Bill C-377 – an unconstitutional attack on unions, it weakens our negotiating abilities while violating the privacy of millions of Canadians.

PASSED: Bill C-525 – a Conservative attempt to destabilize labour relations that was opposed by both employers and unions, it weakens the ability of unions to organize new members.

PASSED: Bill C-51 – By expanding the definition of “national security threat,” the Conservative government can now target unions and labour activists. Strikes, work-stoppages, and nonviolent protest could all be construed as threats, subjecting labour activists to arrest and legally spying on labour organizations.

**OPERATING ENGINEERS ACROSS
CANADA WILL BE VOTING OCTOBER 19.
MAKE YOUR PLAN TO VOTE.**
